PETITION TO THE DIRECTOR OF THE UNITED STATES PATENT AND
TRADEMARK OFFICE

Subject Matter: Advancement of Examination under 37 CFR
paragraph 1.102(c) of the present Application
for Utility Patent with Title: "Method and
Apparatus for achieving Worldwide Reduction of
Carbon Dioxide Emissions and Deforestation",
Application Number 60/475,468, first filed on
06/04/2003 as a Provisional Application.

Dear Sir,

Applicant and Inventor respectfully requests the present
application to be made special and respectfully requests
advancement of examination under 37 CFR paragraph 1.102(c) on
the basis of the following considerations:

- Applicant and Inventor hopes to become 71 years of age on
April 15, 2004; and includes a copy of the relevant page of
his passport to substantiate this statement.
- The present invention materially enhances the quality of the
environment, the apparatus of the present invention can
reduce emissions of carbon dioxide by up to 15 tons per
family per year, as further described in the background part
of the description of the present invention.
- The present invention materially contributes to the
development or conservation of energy resources, the
apparatus of the present invention can reduce kerosene use
for cooking needs by up to 5 barrels per family per year, as
further described in the background part of the description
of the present invention, and can furthermore reduce
kerosene use for lighting needs by a similar number of
barrels per family per year.

Thanking you in advance for your kind consideration of the
present request, I remain,

Very truly and respectfully yours,

A handwritten signature in dark ink, appearing to read "M. M. Romijn", with a horizontal line drawn underneath the signature.

Maarten Martinus Romijn
Applicant and Inventor
